Testimonial for Kyle Milnes. 34 Nesfield Drive, Winterley. Cheshire. CW11 9NT

I have known Kyle for about 5 years, firstly through friendship with his parents and later through personal friendship.

My own level of computer skills is average and Kyle has advised and helped me with my own set up on a number of occasions. His computer skills reveal an extremely comprehensive understanding of the fundamentals of this science and in addition he has the ability to explain things in simple terms. He is also creative and innovative.

In general terms he has a pleasant disposition and an uncommonly positive attitude. He has a high level of personal integrity and does not tolerate lack of integrity in others.

I am confident that he will make a success of anything that he sets out to achieve.
